SATISFACTORY ACADEMIC PROGRESS POLICY

The Higher Education Act of 1965 mandates institutions of higher education to establish minimum standards of "Satisfactory Academic Progress" (SAP) for students receiving financial assistance. These standards are applicable to all financial aid programs including all Federal and State programs. These standards may be amended to comply with federal and state regulations, as well as Institutional and program requirements as applicable.

GPA Requirement

Financial aid students must maintain a cumulative grade point average at or above a 2.0 each semester for all classes in their program of study. *Please see last page for examples.

Progression Requirement

Financial aid students are required to successfully complete 67% of the cumulative credit hours attempted each semester in their program of study. *Please see last page for examples.

Maximum Time Frame Requirement

Financial aid students have a maximum time frame to complete a program of study. The max time frame is calculated at 150% of the established length of the program. At CCC, the 150% time frame will be measured in terms of credit hours attempted. *Please see last page for examples.

STUDENT RESPONSIBILITIES

It is the responsibility of the student to be aware of his or her academic standing each semester. The Financial Aid Office (FAO) will make every effort to notify students of their SAP status and cancellation of awards; however students are responsible for obtaining their grades and determining if they meet the SAP standards. It is the student’s responsibility to notify the FAO of any grade change made after the official posting of semester grades. NOTE: The SAP Policy for financial aid recipients is different than the College’s satisfactory progress standards as stated in the Academic Bulletin & Student Handbook.

SAP PROCEDURES

Only grades of A, B, C, D, P and CE will be counted as hours successfully attempted and completed. Grades of F, I, R, AU, and W will not count as hours successfully completed but will count as hours attempted. An Incomplete will not count as hours earned until a successful grade has been posted.

CCC will evaluate each student’s SAP before awarding financial aid and at the end of each semester. If a student has exceeded the maximum time frame for their program, they will not be able to receive financial aid for that program any longer.

Should either the GPA requirement or the Progression Requirement not be met, the student will be placed on Financial Aid ‘Warning’ status. Financial Aid ‘Warning’ status means the student can receive financial aid for one additional semester. At the end of the ‘Warning’ semester, the student must be making satisfactory academic progress according to SAP standards. If the student is not maintaining satisfactory academic progress standards, the student will be placed on Financial Aid ‘Suspension’ status. While on Financial Aid ‘Suspension’ status a student must pay for classes on their own until satisfactory SAP standards are re-established.
Financial aid students who have been placed on Financial Aid 'Warning' for one semester, and are not in satisfactory academic standing by the end of that semester, meaning they do not have a cumulative GPA of 2.0 and have not earned at least 67% of all courses, will be suspended from receiving financial aid.

If the student is placed on Financial Aid 'Suspension' status, but experienced *mitigating circumstances* which prevented the student from successfully completing courses, it *may* be possible to apply for a SAP Appeal (Please see SAP Appeals section).

Removal from financial aid will not prevent a student from attending CCC. A student who enrolls at CCC without the benefit of financial aid may request a review of grades after any term completed without the assistance of financial aid to determine if SAP standards have been re-established. Once standards are re-established, eligibility may be reinstated for the next academic term.

**Prior Credits**
- Transfer Students- Credit hours accepted for transfer will be considered as hours attempted and successfully completed.
- Returning CCC Students- Any prior credits enrolled at CCC that transfer into the students current program of study, will be calculated in their SAP.

All attempted hours are counted in determining the 150% maximum time frame requirement and the 67% progression requirement for SAP standards, whether financial aid was received for these courses or not.

**Remedial Coursework**

Students who have been accepted into a program of study, and are required to take remedial coursework as determined by placement testing, are limited to 30 semester hours of remedial coursework.

**Course Repeats**

Financial aid will allow for a student to re-take a previously passed course once.

**PROGRAM OF STUDY**

Each student will be allowed to attempt three different programs of study while receiving financial aid. Students must be enrolled in either Cleveland's two-year degree programs, eligible one-year diploma programs, or eligible certificate programs (Please check online for a current list of eligible programs).

**SAP APPEALS**

A student denied financial aid for failure to meet SAP standards may apply for an appeal. A student may request an appeal based on *mitigating circumstances* by completing the "Satisfactory Academic Progress Appeal" form in the FAO.

As part of the appeal form, the student must also provide documentation of the circumstances that prevented the student from making SAP standards. They must also provide documentation of how the circumstances have been rectified in order for the student to make SAP standards in the future.

All SAP appeals go before the Academic Standing Committee for approval (Please check online for the deadlines for SAP appeals). If an appeal is approved, the student will be placed on an academic plan that will ensure the student is able to meet SAP standards according to the Academic Plan (Please see Academic Plan section).
ACADEMIC PLAN

If a student has been granted an appeal, they are placed on an Academic Plan by the Financial Aid Office, which requires students to earn 75% of all hours attempted AND achieve a 2.5 GPA each semester. While on an Academic Plan, if the student fails to earn 75% of all hours attempted or does not achieve a 2.5 GPA, the student will be placed on Financial Aid ‘Suspension’ status. While on Financial Aid ‘Suspension’ a student must pay for classes on their own until satisfactory SAP standards are re-established.

EXAMPLES

Example 1
John registered for 14 credit hours during the fall semester. In order for John to make SAP for the term, he must earn 67% of the 14 credit hours. John must earn 10 credit hours to maintain eligibility (14 x .67=9.38).

Example 2
John has been a student for 3 semesters and has attempted 37 credit hours. In order to maintain eligibility for the following term, John must have successfully completed 25 credit hours (37 x .67=24.79). John has successfully completed 27 credit hours; however his GPA is a 1.91. Since John’s GPA is not a 2.0, he is not meeting SAP standards.

Example 3
John is enrolled in the Associate of Arts program which requires 65 hours to complete. Therefore John can only attempt 97 hours in the program before he has exceeded his max time frame (65 x 1.50= 97.5).

Maria is enrolled in the Cosmetology Diploma program which requires no more than 47 hours to complete. Therefore Maria can only attempt 70 hours in the program before she has exceeded her max time frame (47 x 1.50= 70.5).
